

## WE'RE GROWING IN GERMANY.

Regeneron is a global biotechnology company (member of the NASDAQ-100) that invents life-transforming medicines for people with serious diseases. Founded in New York in 1988, Regeneron is still run by physician-scientists Len Schleifer, MD, PhD and George Yancopoulos, MD, PhD. Our groundbreaking technology accelerates the speed of discovery and development. And with 13,000+ colleagues in 12+ countries, we're growing fast.

The Legal Department of the German Regeneron affiliate, located in the heart of Munich, consists of four team players (two lawyers and two compliance specialists) and is responsible for D-A-CH and a few other countries, pan-European projects and data privacy affairs worldwide. Share with us your interest in national and international legal & compliance projects and be part of the team during
