SEMINAR ON COMPARATIVE AND EUROPEAN LAW

The Urbino Summer Seminar on Comparative and European Law was established in 1959 through the joint initiative of Italian and French jurists, driven by Enrico Paleari and Germain Brulliard. Its purpose is to develop knowledge of comparative, European, international, and private international law and to facilitate the meeting of jurists coming primarily, but not exclusively, from the countries of the European Union.

Conviviality

During the week of the Seminar, participants will have the opportunity to discuss the topics proposed by the professors, get to know all the other participants, and share the beauty of the city of Urbino and beyond.

Experiences in the most emblematic places of the Seminar and its surroundings in Urbino will be offered.

It is through moments of "Conviviality" that the spirit of the Seminar is realized, intertwining the visions, aspirations, and ideas of each participant.

Thus, on Saturday afternoon, those who wish will be offered an exceptional guided tour,
"When intelligence was not yet artificial:
a journey through the Renaissance of the Ducal Palace."

We await you, hoping to see the birth of a timeless friendship with the city of Raphael.
