

Join us as a working student: Marketing & Content creation

Do you have a passion for sharing ideas, exploring emerging tech and communicating complex topics in engaging ways?

At Hapticlabs, we build tools that empower designers to create haptic interactions for mobile apps, smart textiles, virtual spaces, and beyond.

Your role:

You'll support our team to bridge the gap between our technology and the creative community:

- Create written and visual content for social media and our website
- Identify new channels and advance our marketing strategy
- Extend our website and online resources through new use cases

You are:

- Currently enrolled as a student and fluent in English
- Excited about exploring tangible interactions
- Confident in sharing your work through social media
- Bonus points:
 - Experience building or managing a social media following
 - Have a background or interest in design
 - Experience in coding (Web/ Embedded) or electronics

What we offer:

- A flexible, part-time (remote) position with negotiable weekly hours
- Work within a young and highly motivated team
- Hands-on insight into hardware and software projects shipped across the globe

Excited to start or want to learn more? Your profile doesn't fit, but you're still curious? We'd love to hear from you!

Send a short intro and samples of your work to: mail@hapticlabs.io
