What did you like about the course?

- A lot of examples and practical relevance
- August von Fink & Handelsblatt: interesting example
- Balance between the theory and practical examples. Ability of the lecturer to give examples on the go
- Cases from the practice to show how the research can be implemented in reality
- Content interesting for research work
- Everything
- Examples
- Examples the professor had deep knowledge about and could share his insights.
- Examples were good to illustrate the topic more
- Good examples
- Good rethorics
- Good teacher, nice examples
- Important for Master Thesis
- Interesting because of examples and some irony by professor.
- It was very informative and interesting. Attending the lecture created an additional value rather than Just reading the slides at home
- Lecturer + examples
- Lots of real world examples and thorough explanations
- Not much, but the content is very stuff.
I believe Dr Schwaiger Made the best of it :)
- practical aspect and link to real life
- Praktische Beispiele
- Prof. Schwaiger
- Professor is really good. Unfortunately the course is not so interesting
- Real-Life Experiments as examples very interesting
- Sehr strukturiert
- The examples of the Experiments, especially the raid of von finck
- The examples - Real Life experiments
- The examples of real studies in the second part of the lecture
- The examples were really interesting and helped understanding the topic and made the topic more interesting
- The examples were really relatable and therefore it was easier to follow.
- Theory explained with cases.
- The practical examples/content.
- The professor is knowledgeable and good examples
- The Professors examples and wit
- The second part with the actual research explained

- The style of presentation
- The way of presenting
- Top
- Very engaging lecture! Thank you, Professor Schwaiger!
- very interesting
- Well structured and interesting to follow because of lively presentation

Suggestions for improvement:

- - (4 Counts)
- Especially the tables should be explained a bit slower
- It is a Little Bit too Long. Maybe 2 times 90 minutes would be better
- It's a bit dry
- Langsamer durch den Stoff gehen wenn es Tabellen sind ect.
- Make it more interactive
- More Examens (like schwaiger)
- More interaction
- More interactive, lecture was way too long to focus.
- More interesting slides.
- None (2 Counts)
- Smallee course size
- Split it up into two sections 4hours is a bit long in the evening.
- The first part was very long
