Course Material:	Available in Moodle

## Course Description & Main Objectives

---

This M.Sc. course is designed to make students familiar with fundamental concepts and issues in the area of investment banking. Its components are lectures, self-study, and student presentations on selected topics. Students have to individually prepare a case study illustrating the stock market reaction to an M&A transaction. The students also have to discuss papers on topics relevant for investment banking.

## Lectures Overview / Course Outline

---

- 1 Introduction + Event Studies
- 2 Case Study + Investment Banks & Trading
- 3 Topic Presentations
- 4 Case Study Presentations
