

Call for Papers
CEAR/MRIC Behavioral Insurance Workshop 2024
December 17/18, 2024
Munich, Germany

The CEAR/MRIC Behavioral Insurance Workshop invites researchers to submit papers that offer new experimental, econometric or theoretical insights into human behavior in the insurance context. Submissions should have an insurance and/or decision under risk and uncertainty background and establish a link to non-traditional demand or supply theories.

Behavioral economics and behavioral finance typically incorporate cognitive and social factors in modeling economic decisions. These include decisions made by the buyers and sellers of insurance-related products. The field of behavioral insurance attempts to explain many of the discrepancies between theories and observations within insurance markets.

The workshop will be hosted by the Munich Risk and Insurance Center (MRIC) at Ludwig-Maximilians-Universität (LMU) in Munich, Germany, and organized by Andreas Richter and Jörg Schiller. It will be held in cooperation with the Center for the Economic Analysis of Risk (CEAR) at Georgia State University. The preliminary schedule has Professors **Christine Laudenbach** (Goethe University Frankfurt) and **Daniel Gottlieb** (London School of Economics) giving plenary talks.

Submission instructions:

Please submit proposals electronically to richter@lmu.de as file attachment in PDF format by **July 31, 2024**. Authors of accepted papers will be notified by September 17, 2024 and completed papers will be due by October 31, 2024.

Scientific Review Committee:

Glenn Harrison, Georgia State University
Johannes Jaspersen, LMU Munich
Martin Kocher, University of Vienna
Alexander Mürmann, Vienna University of Economics and Business
Charles Noussair, University of Arizona
Andreas Richter, LMU Munich
Jörg Schiller, University of Hohenheim
Justin Sydnor, University of Wisconsin-Madison
