VVZ Faculty of Economics

In order to enable direct communication between lecturers and the participants of a course, it is necessary for students to register for the individual courses.

For this purpose, please add each course you intend to take to your schedule. This can easily be done by pressing "add to schedule" at each course in LSF.

Only if you add the courses you intend to take to your schedule, lecturers will be able to contact you directly via email if necessary. However, it is also possible to participate in a course without adding the course to your schedule in LSF.

Please note: Adding a course to your schedule in LSF does not replace exam registration - this is still required during the exam registration period.
