NICOLE BÜTTNER-THIEL, MERANTIX MOMENTUM

“Playing to Win:

How Can Companies Integrate AI into Business Models in a Meaningful Way?

How Can Europe Become a World Leader in the Development of AI?”

Artificial intelligence is the next stage of digitalization. It will change many things in the future, including companies' business models.

The question is how companies can use it to stay ahead of the competition. To date, US companies have played a dominant role in digitalization. Where can Europe achieve a leading global position in this development? What role does regulation play here?

The presentation will be held in German.

The presentation will also be livestreamed. Recordings will be available a few days later on demand in the Media Center.

For further information and registration, please visit the following website:

<https://www.ifo.de/en/event/2024-04-22/can-companies-integrate-artificial-intelligence>.
