

Workshop 'Meet the Reviewer' - Requirements for Successful DFG Funding Proposals in Philosophy

This workshop addresses early career researchers at LMU's Faculty of Philosophy who plan or consider to submit a proposal in the DFG funding schemes **Walter Benjamin Programme, Research Grant (with or without Temporary Position for Principle Investigator), Emmy Noether Programme or Heisenberg Programme**. Participants are required to hold a PhD or to finish their PhD within the next months.

Prof. Dr. Monika Betzler, chair of Practical Philosophy and Ethics at LMU, will share her experience as a member of the DFG Review Board for Philosophy, discuss proposal requirements and important aspects of the evaluation process.

Dr. Florian Schreck, LMU Unit for Research Funding, will give a short summary of the various DFG programs and the application support services available at LMU.

Meet the Reviewer – What to expect:

The DFG Review Boards play a critical role in the evaluation process at Germany's largest research funding agency as they determine the recommendation for funding or rejection of all submitted proposals in their respective subject areas, relying on comprehensive comparisons and expert reviews. In this workshop, the DFG review process will be explained in greater detail and Prof. Betzler will provide subject-specific inside knowledge for the subject area Philosophy.

All workshop participants will have the chance to inquire about their own proposals and interact with other early career researchers. Furthermore, the workshop will give information regarding the services provided by the Unit for National Research Funding Programs at LMU.

Please note that in our registration form we request information about your planned or considered proposal.

Date:	7 December 2023, 4.00 p.m.– app. 6.00 p.m.
Location:	Leopoldstraße 30, Seminarraum 3
Registration Deadline:	5 December 2023
