

Declaration of Independent Work/Declaration of Authorship

I hereby declare that I have written this work independently. Any passages taken from other works, whether verbatim or in substance, have been clearly identified and appropriately referenced in every instance. This also applies to direct quotations from sources written in other languages that have been translated using AI tools. In such cases, I have cited both the original-language source and the AI tool used for translation (e.g., "Author, Year, Page Number, translation of the original German-language source using DeepL"). Any drawings, maps, figures, or visual representations that have been reproduced from existing works or adapted for the purposes of this submission have been appropriately referenced.

AI-generated images have been clearly identified as such, and the tool used has been named.

Any AI-generated text or analysis code used in this work has been critically reviewed and, where necessary, revised by me.

I take full responsibility for the content of this work and confirm that I could reasonably explain, defend, and reconstruct it without relying on a generative AI tool.
