

Curriculum Vitae

Personal Data

Name: **Paul Schneiderbauer**
Year of birth: **1994**
Languages: **German** (native), **English** (fluent), **French** (basic)

Research Interests

- Simulation-based learning
- Collaborative Learning
- Adaptive instructional support
- Media psychology

Short bio

Paul Schneiderbauer completed his Bachelor's and Master's degrees in Psychology at the University of Innsbruck. In his Master's thesis, he investigated the relationship between the emotional reporting of newspapers and the public's risk perception during the first COVID-19 lockdown phase. In October 2025, he joined the SHARP project for simulation-based learning at the Chair of Education and Educational Psychology under Prof. Dr. Frank Fischer as a doctoral student. In his current research, he focuses on the design of adaptive support systems for collaborative learning within the framework of digital simulations for higher education content.

Academic Qualification
