Program and lecture documentation (if available)

Monday, November 20th

- *Josef Brüderl*: Welcome
- *Josef Brüderl, Katrin Auspurg*: Opening Presentation: Is Social Research Really Not Better Than Alchemy?
- *Josef Brüderl, Fabian Kratz*: Mixed empirical evidence on age-happiness trajectories: It is not due to hidden researcher decisions, but to unclear estimands and mis-specified models
- *Karl-Dieter Opp*: Should Critical Realism Become the Methodological Foundation of Analytical-Empirical Sociology?
- *Werner Raub*: Coleman's Diagram: Some Comments

Parallel Sessions

Session A

- *Hartmut Esser*: Cognitive Differentiation and Collateral-Stratification. Effects of Stringent Ability Tracking on the (De-)Coupling of Cognitive and Social Influences on Educational Success.
- *Richard Nennstiel*: Riding the Learning Curve: An Exploration of Achievement and SES Disparities within the German Educational Tracking System
- *Rolf Becker*: Riding the Learning Curve: An Exploration of Achievement and SES Disparities within the German Educational Tracking System
- *Christoph Bühler*: Marrying young or well-equipped? On the trade off between marriage costs and the duration of engagement in Egypt
- *Renata Topinkova, Carsten Schwemmer*: How (Not) To Fix Online Dating - An Empirical Assessment Using Computational and Experimental Methods

- *Eugenia Polizzi di Sorrentino, Biljana Meiske, Amalia Alvarez-Benjumea, Giulia Andrighetto*: Social corrections and meta-norms in online interactions

Session B

- *Marcel Kappes*: Becoming WUNC: How Issue Change Can Improve Social Movement Success
- *Kerstin Ostermann*: Beyond Proximity: Clustering of Organic Neighborhoods Using a Two-Stage Unsupervised Learning Approach
- *Erik Bihagen, Oliver Lipps, Daniel Oesch, Roujman Shahbazian*: Advancing the measurement of inequality: a new scale expressing occupations' earnings potential in Germany and Sweden
- *Bernd Wurpts*: Complex Networks and the Development of Pre-Modern Institutions: How Cumulative Network Processes Contributed to a Lack of Innovation in the Medieval Hansa
- *Antje Stefani, Isabelle Fiedler*: Understanding Students' Study Success Beliefs: The Influence of Learning Environment and Discrimination from a Gender and Field of Study Perspective
- *Sebastian Mader, Matthias Grossrieder, Sarah Kuhn*: Intergroup contact vs competitive threat: Does immigration change immigration votes? Evidence from Switzerland using objective municipality-level panel data from 2010 to 2020

Tuesday, November 21st

- *Heiko Rauhut (et al.)*: Scientific Misconduct: Beliefs, attitudes, behaviors and their determinants from a large-scale survey of scientists (plus a discussion of data accessibility)
- *Andreas Diekmann, Felix Ries*: Social Status, Empathy, and Religious Background. A Study on Honest Behavior With Lost Wallets in Two Cities
- *Katrin Auspurg, Thomas Wöhler*: Fast, cheap, and any good? An empirical assessment of the quality of online-access panels in survey research
- *Zachary Van Winkle, Thomas Leopold*: The Cost of Widowhood: A Matching Study of Process and Event
- *Martin Neugebauer, Alexander Patzina, Hans Dietrich, Malte Sandner*: The long-term effects of the COVID-19 Pandemic on adolescent well-being
- *Sebastian Bähr, Matthias Collischon*: Changes in the Latent and manifest benefits of work (LaMB) during Job loss and Unemployment
- *Bernhard Kittel, Sandra Bohlmann*: Double socialization, justice perceptions, and the female support of radical right parties
- *Nan Zhang, Melissa Lee*: Military Service and Immigrants' Integration: Evidence from the Vietnam Draft Lotteries
- *Michael Grätz, Alicia Garcia Sierra*: Liberal and radical equality of opportunity
- *Dirk Helbing*: Technological revolution: A new world, a new society in the making

Wednesday, November 22nd

- *Laura Schächtele, Daniel Krähmer, Andreas Schneck*: Assessing reproducibility in observational social science research
- *Ole Brüggemann, Thomas Hinz, Julia Lang, Susanne Strauß, Nick Zubanov*: Filling two needs with one deed: How reminders can improve survey quality
- *Henning Best, Katrin Auspurg, Christiane Bozoyan, Andreas Diekmann, Claudia Schmiedeberg*: Does information increase the acceptance of carbon taxes? Results from a randomized survey experiment

- *Axel Franzen, Sebastian Bahr*: Three decades of observing environmental concern in international comparison
- *Sandra Walzenbach*: Umwelteinstellungen und Umwelthandeln. Mixed-Methods-Anwendungen auch für analytische Soziolog:innen
- *Gian Luca Pasin, Giulia Andrighetto, Eugenia Polizzi di Sorrentino, Vito Trianni*: A norm-nudge intervention to promote the adoption of reusable packaging solutions
- *Martin Abraham, Andreas Damelang, Jan Gniza, Tobias Wolbring*: Double standards in the legitimacy of promotion decisions? A Survey Experiment on Fairness Perceptions of Job Promotions of Natives and Migrants in Germany, the UK, and the U.S.
- *Fabienne Wöhner*: The impact of telework and flextime on mobility behavior before and during the COVID-19 pandemic in Switzerland
- *Johannes Weyer*: The “Greta”-Experiment

Thursday, November 23rd

- *Dave Balzer, Marie Schlosser*: Cultural participation and cultural preferences: Decomposing genetic and environmental contributions using German twin data
- *Felix Wolter*: Merit, Need, Entitlement? Investigating Fairness of Housing Evaluations
- *Claudia Diehl, Susanne Strauß, Julia Lang*: Between two paradoxes. Perceptions of (un-)equal wages among women and men
- *Fabian Kalleitner, Laila Schmitt, Monika Mühlböck, Bernhard Kittel*: The Impact of COVID-19 on Inequality Perceptions and its Consequences for Tax Preferences

Poster Sessions

Monday, November 20th

- *Vincent Oberhauser, Denis Ribeaud, Manuel Eisner, Heiko Rauhut*: Can economic games predict criminal behavior
- *Antonia Velicu, Manon Fauvelais, Julia Jerke, Heiko Rauhut, and Bruno Lemaitre*: Finding Love in the Ivory Tower and Plugging the Leaky Pipeline? How Academia's Homogamous Relationships Shape Careers
- *Florian Zimmermann, Eric Fong, Tobias Wolbring*: Do collective agreements and works councils narrow immigrant-native wage gaps for disadvantaged immigrant groups? Novel evidence from German linked employer-employee data
- *Kevin Ruf*: Skills or Certificates? How the Institutionalization of Vocational Training Moderates the Wages of Horizontal and Vertical Mismatches in the Early Career
- *Anna Lena Fehlhaber*: Do people really fall for it? - A laboratory study on sharing passwords with strangers
- *Felix Ries*: Unraveling Normative Conflicts - Negotiation of Norms in the Subreddit r/AmItheAsshole - **Poster Award Silver**
- *Nico Sonntag, Stella Marceta*: Who wants to believe? An Exploratory Study of UFO Sightings in the US
- *Sammie Jo Douglas Salar*: Analysis of the Usage Behavior of Students of ChatGPT: A Mixed-Methods Study

- *Hazal Halistoprak, Alexander Patzina, Stefani Scherer*: Minimum Wage, Parenting Quality and Children's Well-Being in Germany
- *Liliya Leopold*: Social Body Weight Norms: A Population-Based Profile in Germany, the Netherlands, and the United States
- *Peer Keßler, Ivar Krumpal*: What Really Matters: Ethical Decisions in Triage Situations
- *Raffaele Grotti, Davide Gritti, Stefani Scherer*: Employment instability, spousal labour supply, and material deprivation: does early childcare availability make a difference for young couples?
- *Sebastian Bahr*: Examining the association of land cover with life satisfaction using deep learning

Wednesday, November 22nd

- *Matthias Collischon, Lisa-Marie Duletzki*: Do Gender differences in Smoking and Drinking Behavior contribute to the Gender Wage Gap? – **Poster Award Silver**
- *Martin Abraham, Natascha Nisic, Miriam Trübner, Hanna Walch, Anja Wunder*: The Role of Generalized Trust and Control in the Employment of Domestic Help – an Experimental Case Study for Germany and UK
- *Silvia Schwanhäuser, Yuliya Kosyakova, Herbert Brücker, Stefan Liebig, Kseniia Gatskova*: Effects of uncertainty about intentions to stay and return on the human capital investments of refugees
- *Martina Kroher, Sebastian Lang*: This is the way – Is it the way? On the measurement invariance of different scaling choices
- *Christian Hohendanner, Alexander Patzina*: Do fixed-term contracts ease hiring in uncertain times (the Covid-19 pandemic)?
- *Sandra Jaworeck, Manuel Holz*: Different methods, but same results? A comparison of Causal Forest and Propensity Score Matching on health disparities between natives and migrants.
- *Francesco Renzini, Flaminio Squazzoni*: Network Footprints: An Experiment on Brokerage and Information Diffusion
- *Ole Brüggemann, Julia Lang*: How Do Women and Men Expect Their Co-Workers to React to Perceived Unfairness of Wages? Evidence from a Factorial Survey Experiment among Employees in German Firms
- *Max Otto*: Culture and the Mechanisms of Cooperation: The Interplay of Group Identity and Retaliatory Honor in Social and Economic Exchange
- *Alisia Bauer*: Fit for Fight? A Factorial Survey Experiment on Gender Discrimination in the German Armed Forces – **Poster Award Gold**
