

Diversity in research and talents promotes excellence in science

Diversity, Identity & Fate at Biomedical Frontiers

July 8th, 2026

2nd Symposium

Jennifer Altomonte

"Development of a novel oncolytic virus platform for cancer immunotherapy."

Miguel Pleitez

"Looking and listening to Dancing Molecules for Biomedical Imaging and Non-invasive Biosensing: Translational molecular spectroscopy with a touch of street-knowledge."

Susanna Hofmann

"Toward Personalized Medicine in Cardiometabolic Disease: From Risk Assessment to Tailored Treatment Responses."

Small Lecture Hall,
Biomedical Center (BMC)

15:00 - 16:30 Scientific program
16:30 - 17:00 Coffee break with networking
17:00 - 17:45 Meet-the-Speaker sessions

Information,
program and free
registration:
