Biozentrum
Research Summer
2026

Join us for the

Biozentrum Research Summer 2026

A research internship designed for Bachelor Students in Biology, Nanosciences, Chemistry, Physics, Computational Sciences and other related sciences.

- > Engage in a real-life research project in one of the Biozentrum labs
- > Connect with other students, postdocs and faculty
- > Enjoy an inspiring scientific and social program
- > Ideally suited for students at the end of their second Bachelor year
- > Full-time immersion for 7 to 9 weeks between July and September
- > Internship stipend
- > Limited number of places

Apply by February 25, 2026 at www.biozentrum.unibas.ch/researchsummer
