Subtle discrimination often happens unnoticed - through assumptions, stereotypes or unconscious biases that shape everyday interactions at work and beyond.

This impulse talk invites us to reflect, ask questions and explore how we can create a more respectful and inclusive environment for all.

This Talk is organized by the Team of Women Representatives of the Faculty of Biology.

WE WILL EXPLORE:

How can I recognize when I am experiencing subtle discrimination?

What can I do, and where can I find support?

How can I recognize when I may be subtly discriminating against someone else?

13:30-14:00 Break

After the talk, you are warmly invited to a little get-together with light refreshments.

Let's create space for awareness, reflection and meaningful change.

14:00-15:00 Faculty Women's Conference
