GENERAL INTRODUCTION

About the Course Catalog

This compilation of courses taught in English is not a structured program. It simply lists individual courses held in English in the various departments.

This list of courses is only meant to inform you about the language in each course. It is NOT a list of courses generally open to Erasmus/exchange students.

The list should give you an idea about the availability of courses taught in English in the department(s) of your choice in a particular semester. There is no guarantee that the courses listed on the following pages, or similar ones, will be available in the next academic year.

Furthermore, there is no guarantee for the accuracy and completeness of the information presented here. If you are interested in a particular course, we recommend that you follow the link to the website of the course for more detailed information.

To participate in the courses, you need a sound knowledge of English. English language training is not available at LMU as part of the academic curriculum.

When you put together your study plan, please remember:

1) Individual courses may have prerequisites that you must meet, the number of participants may be limited, registration for the course may follow a special schedule.
2) Courses are offered in the winter or the summer semester, but usually not in both.
3) Course times can overlap.
4) Courses offered at the Master level are not available for students at the Bachelor level.

Types of Courses

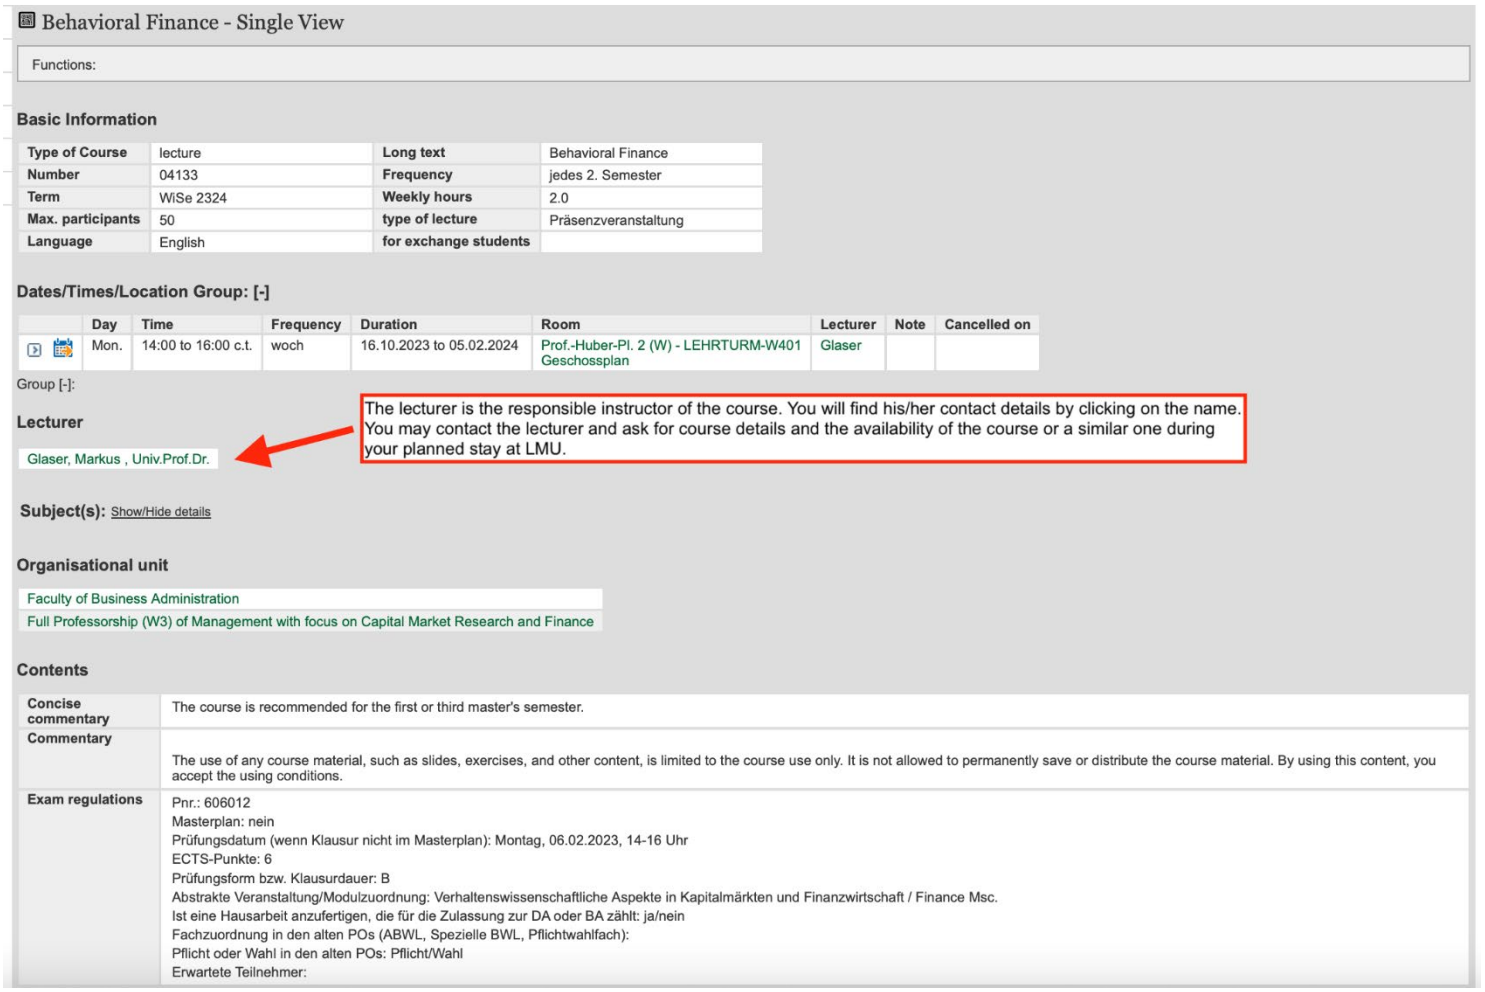

- **Lecture (Vorlesung):** Attendance usually not controlled. Active student participation not required. Compulsory lectures are usually followed by a written examination.
- **Basic Course (Grundkurs/Basiskurs/Einführungsveranstaltung) / Basic Seminar (seminar):** Introductory course. May be divided into lectures and exercises, which are indicated separately.
- **Block Course / Compact Course (Blockseminar):** Basic course that does not take place on a weekly basis, but en bloc (usually several days in a row).
- **Practise Course /Section (Übung):** May accompany lecture work or denote a special course type above the level of a Basic Course.
- **Advanced Seminar (advanced seminar / Fortgeschrittenenseminar):** Emphasizes independent academic work
- **Advanced Seminar for Degree Candidates (Oberseminar):** Taken in preparation for thesis work and final examination
- **Examination Review Course (Repetitorium):** For law students, intensive examination preparation course
- **Tutorial (Tutorium):** Course intensification or examination review course
- **Excursion (Exkursion):** Field trip

Organizing Your Plan of Study

If you are interested in a particular course, press the Ctrl key, and click on the course title. A new window with course details will open (in German). If you prefer the English version, please click on the link "English version" on the top / right. You may also access the course list through this link: https://lsf.verwaltung.uni-muenchen.de

CATHOLIC THEOLOGY

More information about the courses at this faculty can be found on: http://www.kaththeol.uni-muenchen.de/studium/studienangebot/index.html (in German).

No courses available in English.

PROTESTANT THEOLOGY

This department provides specific information for exchange students: https://www.evtheol.lmu.de/en/

More information about the courses at this faculty can be found on: https://www.evtheol.lmu.de/de/studium/studienverlauf-und-pruefungen/ (in German).

No courses available in English.

LAW

This department provides specific information for exchange students: https://www.jura.lmu.de/en/study/internationale-studierende/.

More information about the courses at this faculty can be found on: https://www.jura.lmu.de/en/study/.

No courses available in English.

BUSINESS ADMINISTRATION

This department provides specific information for exchange students:
https://www.som.lmu.de/en/studies/study-abroad/incoming/.

ECONOMICS

Study Information for Incoming Exchange Students (Economics):

https://www.econ.lmu.de/en/study/student-exchange-programs/incoming-students-study-information/

Welcome Meeting for Incoming Exchange Students (Economics):

https://www.econ.lmu.de/en/study/student-exchange-programs/incoming-students-welcome-meeting/

MEDICINE

This department provides specific information for exchange students:
https://www.med.lmu.de/en/study/international-exchange/semester-abroad/.

More information about the courses for ERASMUS students at this faculty can be found on:
https://www.med.lmu.de/en/study/international-exchange/semester-abroad/.

VETERINARY MEDICINE

This department provides specific information for exchange students:
https://www.vetmed.lmu.de/studiendekanat/de/studium/international-students/

More information about the courses at this faculty can be found on:
https://www.vetmed.lmu.de/studiendekanat/de/studium/studienfuehrer/ (in German).

No courses available in English.

HISTORY AND THE ARTS

Department of History

The Institute of History provides specific information for exchange students:
https://www.geschichte.uni-muenchen.de/studium/studium_international/incomings1/incomings2/index.html

More information about the courses at the Institute of History can be found on:
https://www.geschichte.uni-muenchen.de/studium/studiengaenge/index.html (in German)

Lect.-No.	Lecture	Type
09284	Cossacks in Eastern European and Eurasian History: Communities, Political Organizations, Memories Prof. Zazuliak	Practise Course
09140	For international students: Introduction to Bavarian and Munich History, 19th–20th Century (with walking tours)	Practise Course

SOCIAL SCIENCES

This faculty provides specific information for exchange students who attend the courses:

- at the Geschwister-Scholl Institute for Political Sciences (GSI): https://www.en.gsi.uni-muenchen.de/studies/exchange/index.html (general information about the courses: http://www.gsi.uni- muenchen.de/studium/organisation/index.html (in German))

- at the Institute for Sociology: https://www.en.soziologie.uni-muenchen.de/studies_neu/index.html (general information about the courses: https://www.soziologie.lmu.de/en/academics/)

- at the Department of Media and Communication (IfKW): https://www.sw.lmu.de/ifkw/en/ (general information about the courses: https://www.sw.lmu.de/ifkw/en/studies/international-students-at-ifkw/infos-for-incoming-students/#st_img_text__master_12)

Geschwister-Scholl Institute for Political Science (GSI)

Courses on Bachelor level for exchange students:

The list below shows courses at undergraduate level only (numbers in brackets indicate the year of study for degree-seeking students). Exchange students are free to choose courses from any year, with the following exceptions:

- Students with no previous knowledge of political science can only choose basic courses.
- Courses at the advanced level require prior knowledge of political science.
- Bachelor students may not take Master courses.

Most courses have a specific focus. Therefore, the actual topic taught may change from semester to semester. Each course is offered in English and German, but may have different topics. Students receive **6 ECTS for each course**. The list of topics relevant to your stay will be available approximately two months before the start of the semester.

The list of topics for the current semester can be found in LSF (LMU course catalogue) as reference

Learning Agreement: Please choose from the list below.

Useful information is provided on the faculty website: https://www.en.gsi.uni-muenchen.de/studies/exchange/index.html

No..	Course name	Type
15GSI_1	Introductory Course in Political Theory	basic course (1st year)
15GSI_2	Introductory Course in Political Systems	basic course (1st year)
15GSI_3	Introductory Course in International Relations	basic course (2nd year)
15GSI_4	Seminar Statistics for Social Sciences	advanced course (2nd year)

15GSI_5	Seminar in Specialization in International Relations	advanced course (3rd year)
15GSI_6	Seminar in Specialization in Political Theory	advanced course (3rd year)
15GSI_7	Seminar in Specialization in Political Systems	advanced course (3rd year)

Courses on Master level:

The GSI offers English taught Master programs. If you are studying a Master program in political sciences at your home university you will be allowed to register for Master courses. Course information is available on https://www.en.gsi.uni-muenchen.de/studies/programmes/polsci_ma/master/ma_beschreibungen_2020.pdf .

Department Institute of Sociology (IfS)

The department of Sociology provides specific information for exchange students: https://www.soziologie.lmu.de/de/studium/studium-international/incoming/

We offer various English-taught exercise courses and seminars in English. Our lectures are currently taught in German. Exchange students receive 6 ECTS for lectures, 6 ECTS for exercise courses and 9 ECTS for seminars.

As our English-taught seminars and exercise courses are generally advanced courses in both the bachelor's and master's degree programs, they are open for exchange students with a major or minor in sociology or social sciences at their home university. In any case, previous knowledge of sociological theories and (quantitative and qualitative) methods of social research are needed to pass the courses.

Students with no previous knowledge are welcome to attend our **introductory lectures in German**. Generally, students should attend courses corresponding to their degree program (Bachelor or Master).

List of modules with English courses:

No.	Course type	Credits	Period	Level of Study
15IFS_1	Exercise course "Sociological Immersion I"	6 ECTS	Winter and Summer Semester	undergraduate
15IFS_2	Exercise course "Special Sociological Theories"	6 ECTS	Winter and Summer Semester	undergraduate
15IFS_3	Exercise course "Applied qualitative methods"	6 ECTS	Summer Semester	undergraduate
15IFS_4	Exercise course "English in the Social Sciences" *	6 ECTS	Winter and Summer Semester	undergraduate and postgraduate
15IFS_5	Seminar "Sociological Immersion II"	9 ECTS	Winter and Summer Semester	undergraduate
15IFS_6	Seminar "Applied Sociology"	9 ECTS	Winter Semester	undergraduate
15IFS_7	Master's seminar (various topics)	9 ECTS	Winter and Summer Semester	postgraduate

*This course is not suitable for English native speakers.

Since we usually offer most of our English-taught courses in the field of "Sociological immersion I and II", it is possible two take more than 1 course in this field. All courses have a specific focus. We offer a diverse academic range in English including, but not limited to, the following topics:

- Gender differences
- Health and illness
- Migration
- Social inequality
- Sociology of the family and life stages
- Sociology of work

The actual topic taught changes from semester to semester. The list of topics relevant to your stay will be available approximately two months before the start of the semester. For this reason, we recommend you have a look through the courses offered in the past academic year for an idea of what might be offered in upcoming semesters. The up-to-date course catalogue is available at: www.lsf.lmu.de. Search for **"Faculty of Social Sciences/ 2/Soziologie/Courses taught in English".**

Department of Media and Communication (IfKW)

We offer at least **30 ECTS worth of English- taught courses at both BA and MA level each semester**. This includes courses for exchange students only (incoming series), but also mixed courses / lectures. *Our incoming series is open to all students (limited capacity); BA and MA courses are restricted to students in communication sciences or related fields.*

The courses are in the following modules:

- Empirical Communication Research
- Media System in Munich (Media Institutions or Professional Communication)
- Media Work (Journalism, Public Relations & Advertising, or Digital Media)
- Academic Writing

Most courses have a specific focus. Therefore, the **actual topic taught may change from semester to semester**. The list of topics relevant to your stay will be available approximately two months before the start of the semester. The up-to-date course catalogue is available at: *www.lsf.lmu.de*.

Examinations at our department are usually written exams (for lectures), presentations or assignments (for seminars), and occasionally oral exams. We are open to adapting examination formats to meet the requirements of the home university. The examination period typically takes place during the final week of classes or at the start of the semester break. *If our semester schedule overlaps with that of the home university, we will work with students to find a flexible solution.*

For exchange students most of the regular seminars at IfKW give 5 ECTS on under-graduate level and 7 ECTS on postgraduate level. Lectures give 4 ECTS. Empirical research seminars (4h/week, strong focus on empirical research methods) give 10-12 ECTS on under-graduate level, and 12-15 ECTS on postgraduate level.

Useful information is provided on the **department's** *website*.

Lect.-No.	Type	Course	Credits	Period	Level of Study
15IFKW_0	Lecture *Incom. Series*	**Media Change: Contemporary cases, consequences and conceptualisations**	4 ECTS	Winter Semester	Undergraduate and Postgraduate
15IFKW_1	Seminar *Incom. Series*	**Professional Communication in Munich**	7-10 ECTS	Winter Semester	Undergraduate and Postgraduate
15IFKW_2	Seminar *Incom. Series*	**Media Institutions in Munich**	7-10 ECTS	Summer Semester	Undergraduate and Postgraduate
15IFKW_3	Seminar *Incom. Series*	**Writing for Academic Purposes**	2 ECTS	Winter Semester and Summer Semester	Undergraduate and Postgraduate

17136	Analog Electronics - Practical Course	Lab course
17108	Analog Electronics for Scientists	Lecture and practising course
17269	Applications of Machine Learning	Seminar
17214	Astrophysikalisches Kolloquium	Kolloquium

17083	Atmospheric Aerosol	Lecture
17086	Atmospheric Chemistry and Global Change	Lecture
17081	Atmospheric Physics for Physicists	Lecture
17129	Back-of-the-Envelope Physics	Seminar
17066	Biophysics of Systems	Lecture and practising course
17067	Biophysics of the Cell/Biophysik der Zelle (ENTFÄLLT IM WS 2026/27)	Lecture and practising course
17115	Biophysics of the Origins of Life	Seminar
17246	Bohrdt group seminar	Kolloquium
17041	Collaborative Software Development	Key qualification
17089	Computational methods in medical physics	Lecture
17256	Data analysis and statistics	Lecture and practising course
17069	Decoding of Matter by X-Rays	Lecture
17109	Deep Learning for Physicists	Lecture and practising course
17110	Einführung in die Plasmaphysik - Plasmaphysik I	Lecture and practising course
17255	Entropy of Hawking Radiation	Seminar
17079	Experimental Quantum Computing and Quantum Error Correction	Lecture and practising course
17095	F, T6 Physics and Geometry	Lecture
17070	F, T6 Statistical physics of machine learning	Lecture
17101	F, T6 Topics in Quantum Gravity	Lecture and practising course
17105	F, T6: Advanced computational physics for many-body systems	Lecture and practising course
17106	F, T6: AI in Physics: When Machine Learning Meets Complex Systems	Lecture and practising course
17039	Fortgeschrittenes Programmieren in Python für Physiker	Key qualification
17107	Foundations of inertial confinement fusion	Lecture and practising course
17215	Garchinger Maier-Leibnitz-Kolloquium (gemeinsam mit Dozenten des Physik-Departments der TU München)	Kolloquium
17078	Generation of ultra-intense laser pulses	Lecture and practising course
n/a	Grusdt group seminar	Kolloquium
17270	High rate Quantum codes: Construction and Logical Operations	Lecture
17116	International Lecture Series on Nanophotonics	Seminar
17229	Internes Doktorandenseminar „Quantum Twisting Microscopes”	Kolloquium
17074	Introduction to Nanophotonics	Lecture and practising course
17072	Introduction to Nanoscience	Lecture
17124	Introduction to quantum computing	Seminar
17268	Journal Club: Modern Topics in Quantum Simulation and Quantum Computing	Kolloquium
17211	Kolloquium der Fakultät für Physik und des Center for NanoScience	Kolloquium
17237	Kolloquium über Laseranwendungen, Quantenwissenschaften und -technologie	Kolloquium
17208	Lab course to the lecture Decoding of Matter by X-Rays	Lab course
17135	Large astrophysical practical course (6 ECTS)	Lab course
17080	Laser-Ion Acceleration	Lecture and practising course
17094	Magnetohydrodynamic Stability of Fusion Plasmas	Lecture and practising course
17104	MD4: Conformal Field Theory	Lecture and practising course
17091	Medical physics in radiation therapy	Lecture and practising course
17084	Meteorological Satellites	Lecture
17121	Modern Aspects of Soft X-rays	Seminar

17096	Nonequilibrium and Kinetic Theory	Lecture and practising course
17233	Oberseminar: Aktuelle Resultate der Teilchenphysik/Joint Particle Physics Group Seminar	Kolloquium
17073	Optoelectronics I: Inorganic Semiconductors	Lecture and practising course
17265	Origins Data Science Lab Statistics Lectures	Lecture and practising course
17060	P 1 Introduction to Advanced Astrophysics	Lecture and practising course
17137	P 2 Astrophysikalisches Praktikum	Lab course
17138	P 2.2 Übung zum Astrophysikalischen Praktikum	Practising course
17139	P 3 Observing Methods	Lecture and practising course
17077	Photonics I: The theory of light and its advanced applications	Lecture and practising course
17042	Physik und Physik-Kommunikation / Physics and communicating physics	Key qualification
17146	Projektseminar mit begleitendem Kolloquium ”Group Seminar”	Seminar
17127	Quantum Computation and Simulation with Neutral Atoms	Seminar
17312	Quantum Error Correction seminar	Seminar
17092	Quantum Information	Lecture
17125	Quantum Measurement: Theory and Practice (NOCH NICHT BESTÄTIGT)	Seminar
17075	Quantum Optics 1	Lecture and practising course
17120	Quantum Simulation and Computing with Ultracold Matter (NOCH NICHT BESTÄTIGT)	Seminar
17248	RIND Seminar zur mathematischen Physik	Kolloquium
17119	Seminar in Hybrid Nanosystems	Seminar
17141	Seminar on experimental quantum matter research	Seminar
17240	Seminar on Quantum Many Body Physics	Kolloquium
17242	Seminar on radiative transfer and remote sensing	Kolloquium
17244	Seminar on remote sensing of trace gases	Kolloquium
17243	Seminar on Stratosphere-Troposphere Dynamics and Climate	Kolloquium
17241	Seminar on Theoretical Meteorology	Kolloquium
17134	Small astrophysical practical course (3 ECTS)	Lab course
17230	SolTech Kolloquium	Kolloquium
17068	Special Lecture: Physics of Early Life	Lecture
17225	Sustainable Energy Solutions (Doktorandenseminar)	Kolloquium
17099	TB1: Quantum Field Theory (Quantum Electrodynamics)	Lecture and practising course
17100	TC1: General Relativity	Lecture and practising course
17102	TC3: Quantum Field Theory in Curved Spaces	Lecture and practising course
17103	TD1: String Theory I	Lecture and practising course
17087	The Middle Atmosphere in the Climate System	Lecture
17272	Theoretical Physics of Living Systems	Seminar
17257	Theory of living and intelligent systems	Seminar
17097	TMP-TA3: Condensed Matter Theory 1: Solid State Physics	Lecture and practising course
17098	TMP-TA3: Condensed Matter Theory 3: Strong Correlations	Lecture and practising course
17128	Topics in Statistical Physics	Seminar
17245	Topics on medical physics, laser acceleration and nuclear science	Kolloquium
17071	Übung zu F, T6 Statistical physics of machine learning	Practising course
n/a	Übungen N.N. (B 101) (FR 12-14)	Practising course
17057	Übungen zu Advanced Quantum Mechanics	Practising course
17055	Übungen zu Advanced Solid State Physics	Practising course
17093	Übungen zu Quantum Information	Practising course

17076	Ultracold Quantum Gases (NOCH NICHT BESTÄTIGT)	Lecture and practising course
17113	WP 15 Astrophysical Seminar	Seminar
17112	WP 15 Geoscience of Exoplanets I	Seminar
17266	WP 15 Multi-Messenger Astrophysics	Seminar
17267	WP 15 Seminar on Stellar Astrophysics (SESTAS)	Seminar
17141	WP 16 Beobachtendes und Instrumentelles Praktikum	Lab course
17142	WP 16.2 Übungen zum Beobachtenden und Instrumentellen Praktikum	Practising course
17143	WP 17 Numerisches Praktikum	Lab course
17144	WP 17.2 Übungen zum Numerischen Praktikum	Practising course
17000	WP 18/20 From data to insights (9 ECTS)	Lecture
17058	WP 19/21 The Origin of Stars and Planets (9 ECTS)	Lecture and practising course
17059	WP 22/29/24/31/27/34 The Origin of Stars and Planets (6 ECTS)	Lecture and practising course
17061	WP 23/30/28/35 Protoplanetary Disks and Planet Formation	Lecture and practising course
17062	WP 26/33/28/35 Cosmology and Large-Scale Structure	Lecture and practising course
17064	WP 27/34 Astrochemistry	Lecture and practising course
17063	WP 27/34 From data to insights (6 ECTS)	Lecture and practising course
17065	WP 28/35/27/34 Black Holes - Theory & Observations	Lecture and practising course
17147	WP 36 Journal Club Physical Cosmology	Seminar
17149	WP 36 Project Seminar with Colloquium: Working Methods for Young Stars and Star Formation Research	Seminar
17145	WP 38: Project Seminar with Tutorium: Project Planning for Young Stars and Star Formation Research	Seminar
17273	WPA 2.1: Seminar Schlüsselqualifikation: Vortragstechniken	Key qualification

CHEMISTRY AND PHARMACY

This department provides specific information for exchange students:
https://www.cup.lmu.de/en/study/student-mobility/incomings/

Department of Biochemistry

Lect.-No.	Lecture	Type
T1YA-M	Advanced research lab course with seminar in Biochemistry, mandatory main subject (16+2 SWS, building A, full-time, time and place by arrangement)	Lab course
T1YC-P-MI	Current topics, research updates, and literature review in de novo protein design (Raum M-332, MPI für Biochemie, Am Klopferspitz 18, 82152 Martinsried)	Main seminar
T1YC-P-SN2	Discussion on trends in molecular genome research, Feodor-Lynen-Str. 25, Raum A4.01	Main seminar
T1Y	Einführungsveranstaltung für den Master-Studiengang Biochemie	Introduction course
T1YF-M	Flow of genetic information (Biochemistry 7)	Lecture
T1YL-M	Fundamentals of Data Analysis incl. Tutorial - Statistik und Datenanalyse mit Übungen (BioSys M, Raum K0.029)	Lecture
T1GD-I	Genetics of Ageing	Lecture
T1VB-MI	Lab course: High throughput methods in systems biology (minor subject in Molecular Systems Biology in Master of Biochemistry); please see notice posted on bulletin board	Lab course
T1HJ-I	Lab course: Innate Immunity	Lab course
T1YD-M	Life cycle of proteins (Biochemistry 5)	Lecture
T1GA-M	Molecular and Cellular Genetics practical course and accompanying seminar (Sep./Oct., 4 weeks, full-time, Haus F, 4.OG; online registration SoSe on Genecenter webpage)	Lab course
T1GE-M	Posttranscriptional gene regulation	Lecture
T1YV-MP	QMB Bonus Lecture: Single Cell RNA Analysis (BioSysM, Butenandtstr. 1, Room K0.020)	Lecture
T1YU-MP	QMB Lecture: Artificial Neural Networks (ANN) in Python from Scratch (BioSysM, Butenandtstr. 1, Room K0.020)	Lecture
T1YX-I	QMB Primer II: Statistics (BioSysM, Butenandtstr. 1, Room K0.029)	Lecture
T1YY-I	QMB Primer III: Biophysics (BioSysM, Butenandtstr. 1, Room K0.029)	Lecture
T1YW-MP	QMB: Fluorescence Microscopy Image Analysis in Python: From Images to Single-Cell Dynamics (BioSysM, Butenandtstr. 1, Room K0.020)	Lecture
T1Y/GC-P-BE2	Recent literature and progress in macromolecular self-assembly (Feodor-Lynen-Str. 25, Raum A3.01)	Main seminar
T1VB-M	Research lab course with seminar in Systems Biology (10+1 SWS, time and place K1.45 by arrangement)	Lab course
T1SC-I	Seminar Structural Biology, accompanying the practical course, place and time will be announced	Seminar
T1SD-MN	Structural Biology 1 (Feodor-Lynen-Str. 25, Raum A4.01)	Lecture
T1SB-M	Strukturbiologisches Praktikum (16.03. – 02.04.2026, Haus A, Anmeldung beim Dozierenden)	Lab course
T1YG-M	Subject-specific colloquium in Biochemistry - Fachspezifisches Kolloquium in Biochemie	Kolloquium
T1YH-M	Subject-specific seminar in Biochemistry - Fachspezifisches Seminar in Biochemie (two-day block seminar with a specific topic, dates and topics will be announced online before semester start, beginning of October, information about registration online)	Seminar
T1VC-M	Systembiologie 1 (High Throughput Sequencing)	Lecture
T1YL2-M	Übungen und Tutorial zu Fundamentals of Data Analysis (BioSysM, Raum K0.0029)	Scientifc practising

Department of Chemistry

Lect.-No.	Lecture	Type
T1OJ-M	Basics of Cloning, Genomics and Proteomics (im ICEM, Raum L00.010)	Lecture
T1PZ1-I	Conjugated-Organic and Hybrid Materials for Optoelectronic Applications	Lecture
T1PS-M	Diffraction for Materials Science	Lecture
T1PE-I	Electrochemistry: Fundamentals and Applications	Lecture
T1PD-I	Energy Conversion: From Materials to Mechanisms	Lecture
T1PI-M	Fluorescence microscopy and spectroscopy	Lecture
T1OH-I	Glycochemistry - from Synthesis to Biological Function	Lecture
T1IZ-6a-M	High-Energy Materials (Part 1)	Lecture
T1IZ-6b-I	High-Energy Materials (Part 2)	Lecture
T1ZR-P	Introduction to qualitative and quantitative valence-bond (VB) theory (Ort und Zeit nach Vereinbarung in der 1. Stunde bzw. s. Aushang)	Lecture
T1IF-M	Koordinationschemie 2 (Bio-Anorganische Reaktionsmechanismen)	Lecture
T1PX-M	Materials for Space Applications (Ort und Zeit nach Vereinbarung)	Lecture
T1PG-M	Microscopy for Nanotechnology	Lecture
T1PQ-M	Modern Methods in Transmission Electron Microscopy (TEM)	Lecture
T1PJ-I	Moderne Methoden der Laserspektroskopie	Lecture
T1PM-I	Nanostructures: Principles of Design and Function	Lecture
T1PR-I	Physikalische Charakterisierung von Festkörper-Nanostrukturen	Lecture
T1PU-M	Protein Design and Structural Prediction (CIP-Raum F2.067)	Lecture
T1OI-M	Radicals in Chemistry and Biochemistry	Lecture
T1IG-4-M	Spektroskopiemethoden in der Koordinationschemie	Lecture
T1OF-M	Stereochemie und stereokontrollierte Synthese	Lecture
T1WA-P	Wochenkurs: Introduction into Explosion Physics with exercises (Ort und Zeit nach Vereinbarung), Anmeldung Haus D, Raum D3.069	Lecture

BIOLOGY

More information about the courses at this faculty can be found on:
https://www.bio.lmu.de/en/study/

Lect.-No.	Lecture	Type
19183	"Biodiversity of the Canary Islands – Zoological Excursion and Seminar"	Seminar and practising
19265	3D Genome Organisation and Cell Fate - Methods and Functional Importance	Seminar
19250	A Basic Introduction to Conventional MRI and Analysis Techniques for Neuro-Applications	Lecture
19356	Acclimation of plants to dynamic changes in their environment	Seminar
19187	Accommodation of microbes in plants and animals	Seminar
19391	Acid Stress-Projectmeeting	Seminar
19283	Advanced 3D Cellular Systems in Neuroscience - Excercise	Practising course
19282	Advanced 3D Cellular Systems in Neuroscience - Theory	Lecture
19477	Advanced Analysis of Neurophysiological Time Series	Practising course
19541	Advanced data analysis of the brain dynamics serving cognitive function	Practising course
19260	Advanced Seminar in Audio Information Processing	Seminar
19471	Advanced Topics in Evolutionary Genetics, seminar accompanying thesis research	Seminar
19293	Advances in data analysis : application to neural data in Python	Practising course
19540	Advances in Molecular Neuroscience	Seminar
19369	AG Seminar Guse	Seminar
19346	An Introduction to R	Practising course
19284	Analysis of electrophysiological extracellular data - Course 1	Practising course
19287	Analysis of electrophysiological extracellular data - Course 2	Practising course
19280	Analysis of multichannel extracellular recordings and optogenetic manipulations in the visual cortex of awake mice	Practising course
19274	Animal Communication - Seminar	Seminar
19001	Anleitung zum selbstständigen wissenschaftlichen Arbeiten im Bereich der systemischen Neurowissenschaften des Lernens und Gedächtnisses	Guidance on scientific working
19460	Application for the Excursion Wadden Sea in the summer term	Field practising
19517	Basisveranstaltung: Molekularbiologie und Biochemie für Bioinformatiker	Internship
19278	Behavioral paradigms in learning and memory research	Seminar
19416	BioImaging - Practical course und Seminar	Internship
19409	Botanical colloquium	Kolloquium
19514	Botany-bird excursion to Mallorca with preparatory seminar_noch Inaktiv für WS 21/22	Excursion
19256	Checkpoints of Central Nervous System recovery (TRR274)	Lecture
19344	Computational Methods in Population Genetics	Lecture and practising course
19276	Computational Neuroscience - Cellular and network computation	Seminar
19252	Computational Neuroscience: A Lecture Series from Models to Applications	Lecture
19191	Conservation Biology	Seminar
19677	Contemporary overview in research-based preparation of specimens (CORPS)	Internship
19452	Current research in Microbiome and Interaction Ecology	Seminar
19262	Current Topics in Computational Neuroscience of Network Dynamics	Seminar
19100	Current Topics in Neural Circuits of Behavior	Seminar
19261	Current Topics in Neural Circuits of Vision	Seminar
19264	Current Topics in Neural Information Processing	Seminar
19874	Current topics in neurophysiology	Seminar
19259	Current Topics in Sensory and Developmental Neurobiology	Seminar
19267	Current Topics in Systems Neuroscience of Learning and Memory	Seminar
19263	Data Clinic	Seminar
19467	Ecophysiology of Bird Migration	Excursion

19443	EES conference IRT1 und IRT3	Workshop
19456	EES laboratory skills course	Internship
19331	eLecture: Methods in Molecular Biology	Lecture
19368	Forschungspraktikum AG Guse	Lab course
19518	Genetics Training Seminar (GTS)	Seminar
19367	Group Meeting Mokranjac	Seminar
19350	Group Meeting Osman	Seminar
19539	GSN Neurophilosophy Colloquium	Kolloquium
19298	GSN Soft-Skill Courses	Workshop
19579	Hippocampal circuits: from substrate to dynamics and behaviour	Seminar
19549	Hiwis gesucht für Mitarbeit bei EES-Konferenz / hiwis wanted for EES conference 2019	n/a
19251	Imaging Neuropsychiatry I	Lecture
19175	Industry Excursion - Biotechnology	Seminar
19499	Interactive coral reef ecology	Practising course
19500	Interactive coral reef ecology	Lecture
19289	Introduction into Metabolomics and Proteomics Research	Internship
19328	Introduction to Master MCB, PLS, MHB	Introduction course
19349	Journal Club Molecular biology and genetic engineering	Seminar
19520	Keynote Seminar Series	Lecture
19380	Lab rotation and AgS "Genetics of root endosymbioses"	Lab course
19396	Lecture - Heart, Lung and Metabolism: From basic Physiology to Pathophysiological Processes and advanced Therapies	Lecture
19397	Lecture - Molecular Oncology Lecture Series	Lecture
19281	Lecture and Practical Course in Neuroprosthetics	Practising course
19137	Lecture and Practical course: Comparative anatomy and evolution of vertebrates	Lecture and practising course
19330	Lecture and practical course: Computational Biology	Practising course
19345	Lecture and practical course: Phylogenetics	Lecture and practising course
19457	Lecture and practical: Molecular biodiversity research	Lecture and practising course
19419	Lecture and Seminar Current topics in biomedical research	Lecture
19021	Lecture: Current advances in chloroplast science	Lecture
19192	Lecture: An Introduction to Transmission Electron Microscopy	Lecture
19461	Lecture: Aquatic Ecology	Lecture
19333	Lecture: Biological engineering	Lecture
19219	Lecture: Dispersal biology of flowering plants - Vorlesung: Einführung in die Ausbreitungsbiologie der Samenpflanzen und mikroskopische Techniken	Lecture
19010	Lecture: From cannabis and nicotine to anti-cancer drugs - plant derived drugs and how they function in plants and in humans	Lecture
19023	Lecture: Fundamentals of RNA-Viruses with Pandemic Potential	Lecture
19255	Lecture: Human genomics	Lecture
19017	Lecture: Molecular Mechanisms of Microbial Pathogenicity	Lecture
19220	Lecture: Morphology and diversity of eukaryotic algae - Vorlesung: Morphologie und Diversität der eukaryotischen Algen und mikroskopische Techniken	Lecture
19165	Lecture: Plant innate immunity	Lecture
19398	Lecture: Recent discoveries in host-microbe interactions	Lecture
19096	LSM Lecture	Lecture
19326	Master Welcome Event	Workshop
19327	Master's Workshop: Intercultural Communication Skills	Workshop
19357	Molecular and ecological aspects of biotechnology with microalgae and cyanobacteria Part B	Seminar
19342	Molecular Parasitology: Practical Approaches	Practical working
19279	Multichannel extracellular recordings in awake behaving rodents: from experiment to data analysis	Practising course
19834	Natural Neuroscience: Toward a Systems Neuroscience of Natural Behaviors	Seminar
19266	Natural scene statistics and sensory coding	Seminar
19168	Nervous systems dynamics: a computational neuroscience perspective	Seminar
19269	Neural basis of social behavior	Seminar

19843	Neuroimaging of Aspects of Consciousness with Reference to Clinical Applications	Lecture
19285	Neuroimmunological methods in experimental stroke research	Practising course
19254	Neuroimmunology	Lecture
19537	Neurolunch	Seminar
19288	Neuromuscular Disease	Practising course
19273	Neuronal Mechanisms of Vision	Seminar
19529	Neuroscience Lectures (MCN, GSN, BCCN)	Lecture
19415	Orientation week - Brunch Meeting	Introduction course
19445	Orientation week EES	Introduction course
19178	Origin of Life: a seminar covering topics from the RNA World to eukaryogenesis	Seminar
19108	Oscillations in the brain: mechanisms, measurement and function	Lecture
19296	P 10.2 Non-Scientific Skills	Workshop
19297	P 10.3 Vocational Training	Workshop
19151	P 21 Experimental Design	Seminar
19236	P 3.1 Research Project 1 - Practical Course	Practising course
19237	P 3.2 Research Project 1 - Seminar	Seminar
19299	P 7.1 Research Project 2 - Practical Course	Practising course
19300	P 7.2 Research Project 2 - Seminar	Seminar
19301	P 8.1 Laboratory Internship	Practising course
19302	P 8.2 Lab Rotation - Seminar	Seminar
19303	P 9.1 Research Project 3 - Practical Course	Practising course
19304	P 9.2 Research Project 3 - Seminar	Seminar
n/a	Pharmacology und toxicology	Lecture
19459	Population Genetics II: Theoretical Population Genetics	Lecture
19334	Practical and seminar Function, Genetics and Evolution of C4 and CAM Photosynthesis	Seminar and practising
19185	Practical and seminar Functional Anatomy of Seed Plants with Focus on Crops	Seminar and practising
19434	Practical course - Heart, Lung and Metabolism: From basic Physiology to Pathophysiological Processes and advanced Therapies	Practising course
19181	Practical course and Seminar about the diversity of lichens - Übung und Seminar zur Artenvielfalt von Flechten	Seminar and practising
19179	Practical course and Seminar Introduction to Aquatic Entomology	Seminar and practising
19417	Practical course and seminar Model Organisms	Practising course
19340	Practical course and Seminar: Applications of Machine Learning in Biology	Seminar and practising
19249	Practical course and Seminar: Computational analysis of RNA-Seq data	Practising course
19399	Practical course and Seminar: Embryonic stem cells	Practising course
19329	Practical course and seminar: Lab methods in MCB, MHB, PLS	Practising course
19355	Practical Course and Seminar: Methods in protein characterization	Practising course
19217	Practical course and Seminar: Molecular phylogenetics and evolution of plants	Seminar and practising
19186	Practical course and seminar: Plant innate immunity	Seminar and practising
19347	Practical course and seminar: Prokaryote-eukaryote interactions	Practising course
19354	Practical course and Seminar: Systems Biology	Practising course
19532	Practical Course Auditory Electrophysiology	Practising course
19335	Practical course Biological engineering	Practising course
19337	Practical course Immunology	Practising course
19338	Practical course Intravital Microscopy	Practising course
19359	Practical Course Phylogenomics	Practising course
19536	Practical Course Principles of Neurorehabiliation	Practising course
19202	Practical course with excursion for scientific investigations to a natural history museum	Practising course
19020	Practical course: Antibody and protein engineering (incl. Seminar)	Practising course
19468	Practical course: Digital Imaging	Practising course
19476	Practical course: Experimental Plankton Ecology	Practising course
19336	Practical course: Making transgenic plants	Practising course
19014	Practical course: Microbial Development and Physiological Adaptation	Internship

19351	Practical Course: Molecular Cellbiology of Cyanobacteria	Practising course
19013	Practical course: Molecular Mechanism of Microbial Pathogenicity	Internship
19432	Practical Course: Molecular Oncology	Practising course
19224	Practical course: Morphology and diversity of eukaryotic algae - Praktikum: Morphologie und Diversität der eukaryotischen Algen und mikroskopische Techniken (Ergänzungsveranstaltung)	Internship
19362	Practical course: Plant Molecular Cell Biology	Practising course
19341	Practical course: Single Cell Analysis Techniques in Epigenetics Research	Practising course
19214	Practical course: Taxonomy and Plant Collections	Practising course
19427	Presenting your research with impact	Seminar
19277	Principles in Neural Design	Seminar
19292	Python for Beginners: Coding with AI Assistance	Practising course
19197	Research course Anthropology	Lab course
19449	Research course Aquatic Ecology	Lab course
19384	Research course Computational Genomics	Lab course
19450	Research course Osteology and Bioarchaeology	Lab course
19406	Research course: Abiotic stress and non-coding RNA	Lab course
19383	Research course: Advanced light microscopy	Lab course
19231	Research course: Arthropod diversity through time	Lab course
19199	Research course: Biochemistry and Physiology in plants	Lab course
19412	Research course: Bioinformatic analysis of next generation sequencing data	Lab course
19213	Research course: Biology of C4 and CAM plants	Lab course
19201	Research course: Biotic interaction ecology and Microbiomes	Lab course
19395	Research course: Current topics in ultrastructural research in electron microscopy	Lab course
19408	Research course: Current topics in ultrastructural research on plant-microbe interactions	Lab course
19230	Research course: Ecology / zoology	Lab course
19451	Research course: Evolutionary Genetics, Forschungspraktikum	Lab course
19229	Research course: Functional morphology of arthropods	Lab course
19410	Research course: Genetic diversity of lichens	Lab course
19228	Research course: Mass spectroscopy and biochemistry of organelles	Lab course
19210	Research course: Membrane-biochemical topics	Lab course
19375	Research course: Metabolic acclimation to abiotic stress	Lab course
19407	Research Course: Molecular analysis of abiotic stress adaption and non-coding RNAs	Lab course
19209	Research course: Molecular biology and biochemical topics	Lab course
19373	Research course: Molecular Human Genetics / Immunology	Lab course
19218	Research course: Molecular phylogenetics and trait evolution of plants	Lab course
19206	Research course: Molecular plant-microbe interactions	Lab course
19370	Research course: Plant Evolutionary Cell Biology	Lab course
19381	Research course: Plant immunity	Lab course
19225	Research course: Plastid to nucleus signaling in plants	Lab course
19198	Research course: Regulation of cell-cell crosstalk	Lab course
19226	Research course: Regulation of photosynthesis	Lab course
19371	Research course: Regulatory mechanisms of centrosome dynamics	Lab course
19232	Research course: Special zoology	Lab course
19411	Research course: Species diversity of lichens	Lab course
19469	Research course: Statistical Genetics	Lab course
19379	Research courses in molecular virology	Lab course
19422	Research Group Seminar - Cell Biology, Stem Cells and Epigenetics	Seminar
19425	Research group seminar - Microbiology, Infection & Immunology	Seminar
19440	Research Group Seminar: Cardiovascular, Lung and Metabolism	Seminar
19438	Research Group Seminar: Molecular Oncology II	Seminar
19436	Research Group Seminar: Neurosciences II	Seminar
19382	Research Meetings 1 (AG Leonhardt)	Seminar
19441	Research practical course - Cardiovascular, Lung and Metabolism	Lab course
19423	Research practical course - Cell Biology, Stem Cells & Epigenetics	Lab course
19424	Research practical course - Microbiology, Infection & Immunology	Lab course
19439	Research practical course - Molecular Oncology II	Lab course

19437	Research practical course - Neurosciences II	Lab course
19172	Reserach course: Chloroplast envelope proteins	Lab course
19173	Reserach course: Mass spectrometry with plants	Lab course
19143	Schwerpunkt A model systems' approach to coral reef ecology	Practising course
19161	Schwerpunkt A model systems' approach to coral reef ecology	Lecture
19139	Schwerpunkt Organismische Biologie/ Zoologie II - Praktikum Morphokurs basic evertebrates	Practising course
19144	Schwerpunkt Organismische Biologie/ Zoologie II - Vorlesung Morphokurs basic evertebrates	Lecture
19160	Schwerpunkt Systematik, Ökologie und Evolutionsbiologie - Lecture Evolution in the wild	Lecture
19136	Schwerpunkt Systematik, Ökologie und Evolutionsbiologie - Practical course Evolution in the wild	Internship
19385	Seminar AG Leonhardt	Seminar
19403	Seminar and Discussion 1: Phylogenetics, evolution and adaptation of plants	Seminar
19531	Seminar Biomedical Neuroscience	Seminar
19003	Seminar Carl Craver, Explaining the Brain	Seminar
19530	Seminar Cognition and Higher Vestibular Disorders	Seminar
19248	Seminar Core Skills for Scientific Problem Solving and Communication	Seminar
19428	Seminar Current topics in Bioarchaeology	Seminar
19458	Seminar Diversity of Fishes	Seminar
19150	Seminar experimental design: Sensory and developmental Neurosciences	Seminar
19343	Seminar Human Evolution	Seminar
19203	Seminar Life cycles	Seminar
19270	Seminar on Neuronal biophysics and neural computation	Seminar
19002	Seminar Philosophy of Biology	Seminar
19182	Seminar Reproduction in Vertebrates	Seminar
19402	Seminar Staphylocooccal Pathogenicity and Microbiome-Interactions	Seminar
19466	Seminar to accompany thesis research in behaviour and speciation	Seminar
19472	Seminar to accompany thesis research in evolutionary genetics	Seminar
19474	Seminar to accompany thesis research in quantitative genetics and evolutionary bioinformatics	Seminar
19195	Seminar: 12 Drugs That Changed The World	Seminar
19339	Seminar: Advances in diagnosis and treatment of human hereditary diseases	Seminar
19387	Seminar: AG Dvali Lab meeting/Journal Club	Compulsory seminar
19166	Seminar: Animal Models for Psychiatric Disorders	Seminar
19360	Seminar: Anthropology and Mummies: Scientific study of ancient mummified remains	Seminar
19480	Seminar: Behavioral Ecology Lab Seminar	Seminar
19167	Seminar: Challenges and strategies for plant growth during climate change	Seminar
19680	Seminar: Comparative Genomics and the evolution of molecular circuitries	Seminar
19332	Seminar: Computational genetics	Seminar
19464	Seminar: Contemporary Questions in Behavioral Ecology	Seminar
19465	Seminar: Current Literature in Aquatic Ecology	Seminar
19364	Seminar: Current research in plant-environment interactions	Seminar
19177	Seminar: Current Research Results in Genetics	Seminar
19275	Seminar: Current topics in Comparative Genomics	Seminar
19171	Seminar: Current Topics in Molecular Algae Science	Seminar
19376	Seminar: Current topics in plant evolutionary cell biology	Seminar
19414	Seminar: Current topics in systematic biology	Seminar
19207	Seminar: DNA-Repair	Seminar
19463	Seminar: Evolution of sex, sexes and sex determination systems	Seminar
19169	Seminar: Evolutionary Ecology Lab Seminar	Compulsory seminar
19193	Seminar: Food & Genes	Seminar
19180	Seminar: Genes, Immunity & Virulence	Seminar
19435	Seminar: Heart, Lung and Metabolism: From basic Physiology to Pathophysiological Processes and advanced Therapies	Seminar
19401	Seminar: Methods in Computational and Molecular Ecology	Seminar

19018	Seminar: Microbial Development and Physiological Adaptation	Seminar
n/a	Seminar: Molecular biology and genetic engineering	Seminar
19016	Seminar: Molecular Mechanisms of Microbial Pathogenicity	Seminar
19679	Seminar: Molecular plant-microbe interactions	Seminar
19196	Seminar: Nutrient cycle in plants and animals/ Nährstoffzyklus in Pflanze und Tier	Seminar
19405	Seminar: Ökologie der Pilze / Seminar: Ecology of fungi	Seminar
19164	Seminar: Ongoing research in plant molecular biology	Seminar
19377	Seminar: Plant genetics of symbiosis	Seminar
19352	Seminar: Research on mitochondrial biology	Seminar
19174	Seminar: Sample preparation for electron microscopy	Seminar
19208	Seminar: Structural and functional analysis of prokaryotic transmembrane receptors and transporters	Seminar
19184	Seminar: Systematics and biodiversity of fungi	Seminar
19215	Seminar: Taxonomy and Plant Collections	Seminar
19378	Seminar: The Plant-Environment Interactions Journal Club	Seminar
19454	Seminar: Topics and Reviews in Ecology and Ecoinformatics	Seminar
19216	Seminar: Tropical Africa Biodiversity: State of the art and research gaps	Seminar
19271	Sleep and its disturbances in neurologic and psychiatric disorders	Seminar
19286	Songbird neuroscience and behavior	Practical working
19272	Spatial and Temporal Cognition: Experiments and Models	Seminar
19305	Structural and Functional Connectomics in Neuroimaging	Practising course
19538	Tandem Seminar Series UQ-QBI-SBMS / LMU-MCN-GSN	Seminar
19420	Teamplayer & Leadership	Seminar
19877	The Agentic Research Workflow	Workshop
19253	The Auditory System	Lecture
19480	The Ethical Project	Seminar
19268	Theoretical Neuroethology	Seminar
19421	Time Management	Seminar
19548	Tutors for Basic Lab Skills course for incoming master's students	n/a
19294	Visual Behavioral Neuroscience	Practising course
19546	Wanted! Tutors for the Lab Methods Course and the Computational Course	Tutorium
n/a	What is sustainaed in sustainability? Thinking across science and society	Seminar
19426	Workshop on Scientific Writing: Bringing Your Text to Life	Seminar
19240	WP 1.1 Basics in Systemic, Cellular and Molecular Neuroscience - Lecture	Lecture
19241	WP 1.2 Basics in Systemic, Cellular and Molecular Neuroscience - Exercise	Practising course
19429	WP 14.2 Part I - Basics in Systemic, Cellular and Molecular Neuroscience - Lecture	Lecture
19430	WP 14.2 Part II - Basics in Systemic, Cellular and Molecular Neuroscience - Practical Course	Practising course
19431	WP 14.3 Seminar - Neurosciences	Seminar
19242	WP 2.1 Advanced Systemic, Cellular and Molecular Neuroscience - Lecture	Lecture
19243	WP 2.2 Advanced Systemic, Cellular and Molecular Neuroscience - Practical Course	Practising course
19245	WP 4.1 Theoretical Biophysics and Cellular Physiology - Lecture	Lecture
19246	WP 5.1 The Neural Code - Lecture	Lecture
19247	WP 5.2 The Neural Code - Excercise	Practising course

GEOSCIENCES

LANGUAGE COURSES (OTHER THAN GERMAN)

In addition to German classes, the language center at LMU Munich also offers a broad range of language courses in other languages for students from all faculties.

The LMU Munich Language Center (Fremd- und Fachsprachenprogramm) coordinates a comprehensive range of language courses for members of all faculties to accompany their studies or furnish vocational qualifications. The program includes conversation courses and specialized language courses in over 40 languages. A multimedia language laboratory is available for intensive use by students not only in formal tuition, but also in the daily four hours of self-study.

Lect.-No.	Lecture	Type
13016	Arabisch A1.1 (für Studierende ohne Vorkenntnisse)	Language lessons
13017	Arabisch A1.2	Language lessons
14745	Arabisch A2.1	Language lessons
14759	Arabisch A2.2	Language lessons
13120	Bosnisch/Kroatisch/Montenegrinisch/Serbisch I	Language lessons
13305	Bulgarisch I	Language lessons
13136	Bulgarisch III	Language lessons
13306	Bulgarisch: Literatur und Film	Seminar
13307	Català / Katalanisch I / Expressió oral i escrita I	Practising course
13308	Català/Katalanisch III	Practising course
12007	Chinesisch für Nichtsinologen I (A1 Teil 1)	Language lessons
12006	Chinesisch für Nichtsinologen II (A1 Teil 2)	Language lessons
12173	Chinesisch für Nichtsinologen III (A2 Teil 1)	Language lessons
12166	Chinesisch für Nichtsinologen IV (A2 Teil 2)	Language lessons
12791	Chinesisch für Nichtsinologen V/VI (B1)	Language lessons
13348	Eesti keele vestluskursus	Practising course
13020	Englisch B1: English for Academic Purposes	Language lessons
13018	Englisch B2: English for Academic Purposes	Language lessons
14734	Englisch B2: English for Academic Purposes Ferienkurs	Language lessons
13024	Englisch B2: English for Business	Language lessons
14724	Englisch B2: English for Physics	Language lessons
13064	Englisch B2: Exploring Contemporary Texts	Language lessons
13021	Englisch B2: Presentations & Negotiations	Language lessons
13019	Englisch C1: Academic English at Advanced Level	Language lessons
13023	Englisch C2: Academic English at Proficiency Level	Language lessons
13350	Estnisch für Fortgeschrittene	Language lessons
13137	Estnisch I	Language lessons
13349	Estnisch III	Language lessons
13116	Finnisch I	Language lessons
13114	Finnisch III	Language lessons
14735	Französisch A1.1 (für Studierende ohne Vorkenntnisse; für Studierende aller Fächer an der Münchner Volkshochschule - nur zu Informationszwecken)	Language lessons
13026	Französisch A1.1 (für Studierende ohne Vorkenntnisse; nur für best. BA/MA-Studiengänge)	Language lessons
13028	Französisch A1.2	Language lessons
13029	Französisch A2.1	Language lessons
13025	Französisch A2.2	Language lessons
13027	Französisch B1	Language lessons
14805	Französisch B1 (Online-Präsenzkurs, Angebot über die vhb, 6 SWS)	Language lessons
13030	Französisch B2	Language lessons

14807	Französisch B2 (Onlinekurs, Angebot über die vhb, 2 SWS) Grammaire	Language lessons
14806	Französisch B2 (Onlinekurs, Angebot über die vhb, 2 SWS) Un semestre en France	Language lessons
14705	Französisch B2.1 (Onlinekurs, Angebot über die vhb, 2 SWS) A la rencontre de la France d'aujourd'hui	Language lessons
14880	Französisch C1	Language lessons
14808	Französisch für den Beruf C2 (4 SWS, Online-Präsenzkurs, Angebot über die vhb)	Language lessons

EUGLOH: ENGLISH COURSES (OPEN FOR ALL STUDENTS)

Ludwig-Maximilians-Universität München (LMU) is part of the European University Alliance for Global Health (EUGLOH) with eight other European universities: Université Paris-Saclay (UPSaclay), Lund University (LU), Universidade do Porto (UPorto), the University of Szeged (USZ), University of Alcalá (UAH), Tromsø University - The Arctic University of Norway (UiT), University of Novi Sad and Universität Hamburg (UHH).

Together with its EUGLOH partner universities, LMU is forming a “European University” to develop interdisciplinary projects in the field of Global Health.
Students can participate in different courses online regarding Global Health and receive ECTS points for them.

All courses are listed on the EUGLOH website.
