FOREWORD

Founded in 1472 in the city of Ingolstadt and relocated to Munich in 1826, Ludwig-Maximilians-Universität München (LMU) can look back on a rich academic tradition encompassing almost 550 years. Its reputation for outstanding academic achievement is known around the world. LMU is a founding member of the League of European Research Universities (LERU) and cooperates closely with more than 500 international partner universities and research institutes. These cooperations cover areas ranging from academic contacts and student exchanges to the design of joint degree programs and sophisticated summer programs.

By continuing to follow the path of global networking with renowned partners on all continents, LMU fosters international research and exchange. For several years there has also been a focus on cooperation with Chinese universities, which is exemplified in the CSC-Program and above all in the China Academic Network project, established with leading research universities in the fields of Life Sciences, Health, Environmental and Geosciences, Humanities and Social Sciences. By offering a wide range of programs and a tailor-made Europeans Studies program especially for partner universities, the Munich International Summer University (MISU™) supports the objectives of LMU.

For international students, MISU™ is an opportunity to experience LMU at a personal level. Regardless of whether they take part in a Summer Academy or in one of the German Language Courses, they benefit from access to renowned professors and teachers who will inspire them to broaden their knowledge and thinking. Besides, all MISU™ programs include extracurricular social and cultural activities, enabling participants to gain valuable insights into a new culture during their stay.

The array of Summer Academies and Partner Programs has been continually expanding. In past years more than 1,000 participants representing almost 90 nationalities took part in the Summer University. In these especially challenging years some programs took place online as remote learning courses.

We would like to thank all those who supported MISU™.

September 2022
Prof. Dr. Francesca Biagini
Vice President for International Affairs and Diversity, LMU Munich

MISU® at a GLANCE

History

During the 1920s and 1930s LMU Munich hosted summer courses pertaining to German language and literature. The first course to be documented was a German language class in the summer of 1927. After a hiatus lasting several decades, LMU Munich restarted its summer activities in 1998, then under the name of Internationaler Münchner Sommer. Subsequently, the number of language classes has grown, along with the establishment of completely new Summer Academies covering a broad range of academic subjects. In 2008, LMU’s summer courses were integrated into the Munich International Summer University, or MISU®, giving a distinct vision and common standards to the various programs as well as consolidating its role as an international institution of LMU Munich.

Concept and Key Features

Summer programs are valued as an instrument for improving the profile of a university and a chance to showcase its academic strengths to an international cohort of students and their home universities. As an institution of LMU Munich, MISU® curriculars are developed and classes held by LMU staff, partly in cooperation with outstanding German and international partners. All courses guarantee a high academic standard. Small classes, as well as modern and interactive teaching methods, ensure that students are fully engaged in their studies. In general, it is possible to earn credits (usually ECTS credit points in accordance with the European Credit Transfer System) for MISU® Summer Academies and Language Courses. The programs are academically intensive, but offer far more than an academic experience alone, as the participants also learn a great deal about their host city and country during their stay. In addition, the students are supported by a broad spectrum of services, such as detailed prearrival information and the organization of their accommodation. All MISU® courses and activities are of a non-profit nature: the fees for participants are calculated to cover the costs only. And, of course, MISU® strives to offer financial aid too, in order to facilitate participation. In 2011, all members of the MISU® Academic Board approved a concept which includes these key features.

Objectives

MISU® aims at providing its participants with high-level academic knowledge as well as an unforgettable stay in Munich, while simultaneously enhancing the international visibility of LMU Munich and its academic strengths. Summer programs are also valued as a means of developing international cooperation with partner institutions. For international students, MISU® offers an excellent opportunity to gain insight into research and teaching at LMU. Courses can serve both as an alternative to longer exchange programs as well as a pathway to further studies, thus increasing student mobility and attracting students of extraordinary caliber. Furthermore, MISU® is designed as a long-term undertaking, with a spectrum of courses representing the relevant academic subjects of LMU Munich. Hence to increase the number of Summer Academies is another important objective for the future.

Responsibilities

The MISU® Academic Board, which merged with the Advisory board of the LMU International Office functions as an advisory panel and is responsible for both quality control and quality assurance. All faculties are members of the board: the Vice President for International Office, who acts as chair; professors, each of whom represents a different discipline - foreign representative of the faculties - and who advise on academic matters; the head of the International Office and the executive director of the IUCM, who advise the board on administrative and non-academic concerns.

Three parties shoulder MISU®’s practical organization. As part of the administration of LMU Munich, the MISU® office is the point of contact within the university. The International University Club Munich (IUCM) is responsible for logistics. Academic staff members of LMU Munich prepare schedules and select participants, along with holding classes, testing, and writing certificates.

See affixes for an organizational chart and the names of the current board members.
MISU® OFFICE AND MANAGEMENT

- Organization
- Network and Communication
MISU™ OFFICE AND MANAGEMENT

Organization

The International University Club Munich (IUCM) is a „Verein (e.V.)“, a registered non-profit association of former LMU students. In 1998 it restarted the tradition of summer schools at LMU Munich from 1927 under the name „International Summer Munich“. The ISU lasted until the summer of 2007, when the Munich International Summer University (MISU™) was established as a successor organization. Since then the MISU™ has been coordinating existing summer programs, cooperating in developing new ones, and promoting communication about MISU™ within the LMU, to LMU partners, and to interested people around the world.

The IUCM is responsible for the administration and continuity of MISU™ in close partnership with LMU’s International Office. Their shared goal is to enhance the internationality of LMU Munich by assisting international students. The cooperation between LMU Munich and the IUCM is laid down in an agreement, through which IUCM assumes responsibility for MISU™’s organization. IUCM’s activities include the management of all financial issues, accommodation usually in student residences, excursions and the social and cultural program, plus the handling of the application process for several courses.

Network and Communication

The MISU™ office networks both within LMU and externally. University-internal communication involves the administration - most notably the University Executive Board - on the one hand, and members of the academic staff, on the other.

In the light of the fact that the internet is essentially the main source of information worldwide, the maintenance and actualization of the MISU™ sites is a main concern of all involved parties. The summer courses portal of the German Academic Exchange Service (DAAD), the portal of the Bavarian State Ministry of Sciences and the Arts and other instructional summer school portals are also instrumental in informing young people around the globe. Flyers and posters for MISU™ are produced in-house by the IUCM. Platforms which report regularly on MISU™ include: the newsletter of the International Office and LMU’s international newsletter (insightLMU).

Key contacts are the LMU representatives in the US, China and Brazil, as well as the colleagues at International Offices of LMU partner universities. This is often just as true of people encountered at visits, fairs, and other events, and delegations visiting the International Office of LMU Munich.

MISU™ Summer Academies

MISU™ Summer Academies offer high-level instruction in various scientific subject areas of LMU Munich; opportunities range from demanding undergraduate courses via advanced seminars to practical research experience held in English, they are an excellent opportunity for international students to gain a valuable first insight into researching and teaching at LMU. MISU™ always strives to enhance the number and to broaden the spectrum of subjects of its Summer Academies.

In 2022 a total of 8 programs were organized in the fields of law, media, economics and entrepreneurship, political sciences, medicine and natural sciences. Three of the programs (MDA, MACIL, FAV) were planned partly as online courses and partly as on-campus courses.

- European Studies Winter and Summer Schools (January, June, July, August) for students from the partner universities of the LMU-China Academic Network (LMU-ChAN) and international students from different universities and countries
- Amgen Scholars Program: From Molecules to Behavior (Amgen)
- Munich Center for Quantum Science and Technology (MCQST)
- Machine Learning and Data Analytics in Finance and Accounting (MDA)
- Munich University Summer Training in German and European Law (MUST)
- Munich Advanced Course in International Law (MACIL)
- Management Practices and Corporate Communications in a Global Environment (IM)
- Financial Statement Analysis and Valuation (FAV)
European Studies Winter and Summer Schools
Online and Offline
January, June, July, August

For students from the partner universities of the LMU-China Academic Network (LMU-ChAN) and international students from different universities and countries

After the Corona-crisis and its impact on transnational mobility, MISU at LMU Munich decided to run in-person classes and remote programs. European Studies programs taking place in person at different European cities and online were newly conceptualized and implemented. A new partner joined the program for Vienna: The Central European University. In Prague the program continued at the Anglo American University Prague. Online classes, coordinated by Dr. Stefan Jagdhuber combined daily live seminar sessions via Zoom with asynchronous teaching via LMU Munich’s e-learning platform Moodle.

The European Studies programs introduce students to the history and development of the European Union. Participants dig deeper into European politics, processes of Europeanization as well as the EU’s foreign political behaviour. Class debates took place live as well as asynchronously via forums. 2022 the programs had the title “Competing Identities and Conflict in the EU and its Neighbourhood”.

The different European Studies Programs were evaluated very positively. Based on this experience MISU decided to run the EU Studies programs in class and in the future as online classes.

Future prospects: The program will continue in 2023.

www.european-study.eu
Summer Research “From Molecules to Behavior” (Amgen Scholars) since 2009

Munich Center for Neurosciences – Brain and Mind (MCN) at LMU Munich

Together with the University of Cambridge, the Karolinska Institutet in Stockholm, ETH Zurich and Institut Pasteur in Paris, LMU Munich was selected as a partner with the Amgen Foundation in order to establish an undergraduate summer research program in the fields of biology and biotechnology. Under the guidance of MCN, the Summer Academy “From Molecules to Behaviour” has been running now since 2009. Further participating institutes are: the LMU and LMU Klinikum; the Helmholtz Zentrum München; the Max-Planck Institutes of Biochemistry, Biological Intelligence, and Psychiatry; and the Technical University of Munich. In 2022, 21 projects were offered in the research fields of biochemistry, cell, developmental, and molecular biology, genetics, microbiology, molecular medicine, cellular and organism neurobiology, computational neuroscience, cancer research, plant sciences and proteomics.

Topics and objectives: The program aims to increase learning and networking opportunities for undergraduate students committed to pursuing a career in science or engineering.

Target group and application: Qualified students are selected based upon overall academic success, qualified references, motivation to pursue research, and a sincere interest in pursuing a PhD and a career in science. Due to the requirements of the foundation, only undergraduate students enrolled at European colleges and universities (according to the European Higher Education Area - EHEA) are eligible to participate.

Certificates: A certificate and transcript of activities is awarded by the programme coordination office at LMU.

Future prospects: The first proposal was approved by the Amgen Foundation for 2009 and 2010, which was followed by successful 2nd and 3rd phase proposals continuing the program through 2018. Most recently, the 4th funding phase was approved, extending the programme until 2023.

www.amgenscholars.mcn.lmu.de
The MCQST Summer Bachelor Program provides undergraduate students worldwide the opportunity to gain an insight into research in Quantum Science and Technology (QST) at MCQST and its participating institutes.

In 2022 the program included an introductory week featuring a retreat in the Bavarian Alps and a three week research project in Munich. The welcome retreat offered soft skills trainings and a chance to get to know all other participants. During the remaining three weeks, participants of the program worked on a hands-on project in one of the research groups. A junior researcher (PhD student or PostDoc) served as a mentor and personal contact, introducing the project and supervising it. Each participant was fully integrated into the research group. This allowed everyone to experience the processes and challenges of cutting-edge research in Quantum Science and Technology (QST).

The program concluded with a closing symposium to the group and the MCQST community. Work was presented in a 5-minute talk and a poster presentation.

MCQST focuses on specific research directions: quantum information theory, quantum simulations, quantum computing, quantum communication, quantum metrology and sensing, quantum matter, and interdisciplinary explorative directions.

Target Group: Bachelor students enrolled in an undergraduate degree in physics, mathematics, computer science, electrical engineering, material science, or chemistry.

Future prospects: The program will continue in 2023.

LMU Munich, Institute for Accounting, Auditing and Analysis (AAA)

An increasingly complex global business environment requires firms’ to make use of the large amounts of data out there in order to make better decisions. Machine learning allows to “automatically detect patterns in data, and then use the uncovered patterns to predict future data” (K. Murphy, Research Scientist at Google).

Using data analytics techniques, large data and detected patterns can be visualized and communicated to decision makers. Both, rapidly evolve and change businesses as well as companies’ financial processes. This opens up the possibility of using machine learning approaches to cope with complicated real-world financial problems that are too complex for humans.

As a result of participating in this course, a student is expected to

- understand the goals and capabilities of machine learning
- apply machine learning approaches using Python to real-world financial problems
- use important data analytics methods in Python to evaluate large data sets

This program is offered for Bachelor graduates, Masters graduates and young scientists as well as to support their successful placement in attractive fields of activity.

Prerequisites for participation are a good command of written and spoken English. Lectures, presentations and examinations are held in English. Knowledge of German is not a prerequisite. The program will continue in 2023.

www.mda-misu.de
Munich University Summer Training in German and European Law (MUST) since 2001

LMU Munich, Faculty of Law

MUST started in 2001 as an initiative of LMU’s Faculty of Law. Since its beginning, it has included visits to relevant institutions, like the European Patent Office, the Federal Constitutional Court and the Federal Supreme Court of Justice in Karlsruhe. The program was initiated by Prof. Dr. Dagmar Coester-Waltjen and is now under the guidance of Prof. Dr. Thomas Ackermann.

Topics and objectives: The course provides an in-depth introduction to German and European Law. Special attention is devoted to areas that are of interest to foreign lawyers working in business law, i.e. corporate and competition law as well as business taxation. The program brings together exceptional lawyers and law students from many countries and provides the opportunity to create an international alumni network.

Target group and application: Any young lawyer or law student who has done at least one year of study at university level can apply for the program. Participants are selected on the basis of their qualifications and academic or practical experiences.

Certificates: At the end of the program participants have the opportunity to take an examination; successful participation in the examination is documented by a transcript with credits and grades issued by the Faculty of Law of LMU Munich. In addition, a Certificate of Attendance is given to all students.

To help participants get in touch more closely with the social environment and the subject matter a free and optional German language course was offered with 2 levels (absolute beginners, advanced beginners) with a workload of 8 x 2 hours in total.

Future prospects: The program has meanwhile become very well-established and has been integrated into the faculty. Thus, it will surely continue in a similar manner in subsequent years.

www.must-misu.de
LMU Munich, Institute of International Law

The 11th MACIL Summer School had the following title: “Multilateralism under Pressure - What is the Future Role of International Law?”

The course examined the trend in recent years to resort to power politics rather than multilateral solutions in international relations. Topics included, inter alia, questioning the steadfastness of the prohibition of the use of force or examining institutional challenges which the ICC and WTO dispute settlement are currently facing.

The 2022 course was planned partly as an online course and partly as an on-campus course due to the uncertainties regarding the COVID19-situation.

The MACIL summer school is partner of the Erasmus Mundus Master in International Law of Global Security, Peace and Development (ILGSPD), a 24 months Master’s program which aims to train the next-generation of lawyers and policy-makers with the ability to navigate the political context of international law and the comprehensive knowledge needed to engage with the issues of global security, peace and development. For more information regarding this program, please refer to the ILGSPD-webpage.

Students were awarded with a certificate of attendance for participating and 3 ECTS for handing in an additional essay.

Future prospects: The 12th MACIL session is going to take place from August 3 to 11, 2023.

www.macil-misu.de
The LMU Munich School of Management - one of the leading universities for Business Administration in Europe - offers a unique summer program for students from around the world. The course takes place in the heart of Munich and addresses relevant topics of corporate communications as well as international management.

The goals of the course are:
• Understanding the basics of international business and of the challenges confronting international and intercultural management
• Learning how to analyze business cases and how to apply theoretical concepts to real-world situations
• To develop superior strategies and achieve improved understanding of management communications, both on a corporate as well as an individual level
• Learn how companies use communications to implement strategy and achieve competitive advantage
• Develop a broad array of negotiation skills experimentally
• Explore the major concepts and theories of bargaining and negotiation

To reach these goals, we will examine several cases, readings, and films that will help students to understand how corporate communications relate to international management. Considerable emphasis will be placed on simulations and role-playing as well.

Target group are bachelor students from all faculties and young professionals with an interest in international business and corporate communications. Prerequisites for participation are a basic knowledge of business administrations and a good command of written and spoken English. Every student receives an official transcript after the successful completion of all program requirements. The transcript shows the course name and contact hours, the number of acquired credits as well as the achieved grades.

Future prospects: The program will continue in 2023.

www.im-misu.de
Financial Statement Analysis and Valuation (FAV) since 2017

LMU Munich School of Management

The Munich School of Management at LMU - one of the leading universities for Business Administration in Europe - offers a unique summer program for students from around the world. The course “Financial Statement Analysis and Valuation” takes place half online and in the heart of Munich and in parts online. It addresses relevant topics of analyzing and interpreting financial statements.

The course aims to familiarize students with firms’ financial statements and financial statement analysis to their professional benefit. Students learn to consume, analyze and forecast financial statements, as well as to forecast a firm’s future business activities and to conduct a sound fundamental equity valuation to challenge market prices of real-world companies.

To reach these goals, the group examines several cases, readings, and films that will help students to understand how corporate communications relate to international management. Considerable emphasis is be placed on simulations and role-playing as well.

Target group are bachelor students from all faculties and young professionals with an interest in international business and corporate communications. Prerequisites for participation are a basic knowledge of business administrations and a good command of written and spoken English.

Every student receives an official transcript after the successful completion of all program requirements. The transcript shows the course name and contact hours, the number of acquired credits as well as the achieved grades.

Future prospects: The program will continue in 2023.

MISU® German Language Courses

MISU® German Language Courses are available at beginners’, intermediate, and advanced levels; one of the courses also prepares for a DSH- or TestDaF-examination, a prerequisite for a degree study in Germany. Specialist classes, such as the „Fit for...“ courses complement the offer of MISU® German Courses.

- Summer German Language Course
- LMU Study Preparation Course: German Class (September)
- DSH- and TestDaF Preparation Course
- Fit for the B2 Certificate
- Fit for the B1 Certificate
- German for students of engineering disciplines
International University Club Munich (IUCM e.V.)

These four-week language courses have been offered by IUCM since 1998 in close cooperation with the International Office of LMU Munich, and have been part of the MISU® since its beginning. The first German course was offered in 1926. There were no courses between 1938 and 1997.

Topics and objectives: Participants aim is to develop four basic skills: speaking, reading, writing, and listening. Special focus is laid on communication, in particular in the areas of culture and academic study. The courses also explore and examine social contexts with a look at everyday life and culture in Munich, and are supplemented by a variety of activities - such as excursions to points of local cultural significance. Trained language teachers, as well as student tutors, are prepared to help the participants along during the program’s various events. Since 2012 additional phonetics tutorials and theater workshops have been provided.

Target group and application: The course is designed for foreign students in all areas of study.

Certificates: By regularly attending the classes students are awarded a certificate with ECTS credit points. This certificate details the number of lessons attended as well as the content and language level of the course in accordance with the regulations of the Council of Europe’s Common European Framework.

Future prospects: The course will definitely continue; only the number of courses of each language level varies during the years.

www.ssk-misu.de
International University Club Munich (IUCM e.V.)
Deutschkurse bei der Universität München e.V. (DKfA e.V.)

Since 1996 the Study Preparation Program by LMU has been organized by the International University Club Munich (IUCM). Since 2013 the LMU partner Deutsch-Uni Online and Deutschkurse bei der Universität München e.V. joined in close cooperation with the International Office of LMU Munich.

Topics and objectives: LMU’s percentage of international students is about 15%, and several hundreds of foreign students take advantage of various study abroad programs – such as Erasmus – every year. The aim of the preparation courses is to provide these students with an intensive German language instruction, whilst giving them an orientation to student life in Munich as well, so that their studies will get off to a good start. Thus the language part is focussed upon the review and development of language fundamentals for study purposes.

Target group and application: Students with all levels of German knowledge, especially those who plan to continue studying at LMU as a degree or exchange student, can apply.

Certificates: By regularly attending the course students are awarded a certificate with ECTS credit points. This certificate details the number of lessons attended as well as the content and language level of the course in accordance with the regulations of the Council of Europe’s Common European Framework.

Future prospects: The program will certainly continue; only the number of classes varies during the years.

MISU™ Summer Course: DSH and TestDaF Preparation Course

Deutschkurse bei der Universität München (DKfA e.V.)

is an Intensive Course for advanced learners that Deutschkurse bei der Universität München e.V. offers prior to the DSH or TestDaF exams in cooperation with the Office for International Office at the Ludwig-Maximilians-Universität of Munich and the „Munich International Summer University“ (MISU™). These exams are required for admission to higher education in Germany.

Language Program: Improving previous knowledge of German and at the same time preparing for the DSH exam and TestDaF exam: becoming familiar with the test format and practicing individual sections.

There is the opportunity to participate in the internal DSH in August.

Examination Fee: 100 Euros

Target Group: Advanced learners of German with language level B2/C1 (in accordance with the Common European Framework of Reference for Languages).

German language learners, university applicants, students and graduates in all disciplines.

Information on date, cost, cultural program, ECTS credits, registration and payment: MISU Summer Courses: general information

Deutschkurse bei der Universität München (DKfA e.V.)

is an Intensive Course for very advanced learners that Deutschkurse bei der Universität München e.V. offers in cooperation with the International Office of the Ludwig-Maximilians-Universität of Munich and the „Munich International Summer University“ (MISU®).

This course will help you to improve your German language skills to level B1/B2.

Grammatical structures, listening comprehension, reading comprehension and text production are rehearsed. At the same time you will have the opportunity to prepare yourself for the examination format B2.

A B2 certificate attests that you can communicate confidently in almost all everyday and work settings. There is an opportunity to participate in the telc Deutsch B2 examination in August. Examination Fee: 140 Euros

Target Group: German learners, working people, students
